### Anne C. Fox

Born:

Lived: Rochester, New York (Graduated from the College of St Elizabeth)

Profession: College Professor

Service:

Date	Branch/Unit	Location	Rank
1918	Army, Signal Corps	France	Lieutenant

Anne Fox was in the second group of women sent to France to be bi-lingual (English-French) telephone operators.

Died:

<p>Young, pertty and very boyish looking in her navy blue uniform, Miss Anne C. Fox, a graduate of the College of St. Elizabeth, admitted that it was purely patriotism that made her enlist in the United States Signal Corps. So far as is known, she is the first woman near here regularly enlisted in the army. It was January 24 that she appeared at the army recruiting station in Rochester, N. Y., and passed the examination which made her a member of the French Speaking Telephone Unit of the United States Signal Corps.</p>	<p>The uniform Miss Fox wears is jaunty, well tailored and warm. The coat is long and has voluminous patch pockets, palpably for the carrying of dispatches. The skirt is short, coming but a little below the knees, and high, tan leather boots are worn. A little trench hat of the same material as the suit perches on the side of the head, with a wig-wag bags crossed over the torch—the insignia of the Signal Corps—in front. The hat is thick and warm, and can be pulled well down over the face and ears. A long, heavy coat goes with the uniform.</p>	<p><b>COLLEGE OF ST. ELIZABETH HAS GIRL IN SIGNAL CORPS.</b> (Continued from page one)</p>
<p>"When the draft came, and so many boys were called away, in the face of the big problems confronting the country, I wanted to get in it, but couldn't see any way for awhile, until one day I read an item in a newspaper about the telephone unit of the Signal Corps.</p>	<p><b>Under Army Discipline.</b> On the left arm of the coat is a white band, bearing on it, embroidered in black, a telephone transmitter. As the rating of the enlisted soldier, for women are clasied as such, is raised, other insignia indicative of the rank will be added. The chief operator wears a laurel wreath around the transmitter. The women are subject to the same rigorous discipline as regularly enlisted or drafted men. Whether they would be classed in the same way with men deserters, if they took French leave was unknown to Miss Fox, but to the best of her knowledge such was the case.</p>	<p>and considerable regulation military drill take up the day with the girl soldiers until they have little time for anything else. Still, the St. Elizabeth girl likes the routine. She is wearing her hair bobbed short, and looks fit and ready for any hardship. The other young women are all the same, she said, and look forward to the prospect of crossing the ocean cheerfully.</p>
<p><b>To Be Near Fighting.</b> Miss Fox said the unit expected to be established somewhere behind the fighting front, with the probability that it would not be more than ten miles from the first-line trenches. She appeared entirely indifferent to the fact that she might be sent well within the danger zone. Other units of the same sort are training all over the country, she said. There are 150 girls in the one she joined, with headquarters at Camp Merritt, N. J.</p>	<p>She did know there was some trouble in obtaining her furlough, which she is now spending with her parents, Mr. and Mrs. Patrick Fox in Rochester, and must be back at camp by next Tuesday morning. Diversions have little place in the training of the young women. As she expressed it:</p>	<p>The St. Elizabeth girl refused to consider at all the danger of running afoul of a German U-boat. Her contempt of German terrorism may be derived from the fact that she knows Germans and Germany intimately. For six years she studied in Germany and France, and one of her schools was but a little way from Berlin. She speaks French like a native—a prerequisite for enlistment in her unit—and German nearly as well. Her knowledge of Spanish is such that she was a teacher of that language up to the time of her enlistment at East High School.</p>
	<p><b>Camp Life Arduous.</b> Incessant drill at the switchboard, (Continued on page two)</p>	<p>After enlistment at the army recruiting station, Miss Fox went to New York City, where she received her physical examination and test in French. The pay for operators is but \$60 a month, while supervisors receive \$75, and chief operators \$125. She is a graduate of the College of St. Elizabeth, Convent Station, class of 1909. In 1911, she was one of two to receive the Master's degree in Arts. For three years she was Professor of Latin and History at d'Youville College, Buffalo, and up to the time of her enlistment taught English at the East Side High School, Rochester. She is one of the Associate Editors of the Elizabethan News Letter.</p>

Profession:

Service:

Date	Branch/Unit	Location	Rank
July 27, 1917	New York National Guard, Squadron A, Company B		
1918	Army	France	

Died:

**JAMES J. SULLIVAN WRITES  
OF FACING DEATH AT FRONT**

**Soldier Who Formerly Made Madison  
His Home Tells of War Experiences**

Many residents remember James J. Sullivan, son of Leo Sullivan, who is with J. P. Morgan & Company at 23 Wall street.

Young Sullivan made his home here until a year and a half ago when the family moved to Brooklyn. Soon after he entered the army and at Camp Wadsworth last spring made a hit in the soldier show "You Know Me—Al."

Since then he has faced death at the front many times. He has written home an interesting letter describing experiences in the front line trenches.

He says:

"Received yours of the 28th and I sure am glad to hear from you. The mail has been so irregular lately that I haven't had a letter in two weeks and yesterday I received a bunch altogether.

Frank McCaulay, whom you met, has been wounded, but I understand he is getting along very nicely; at least I hope so.

"We have been in the line a few times and have had a tough time of it. One of the shells landing among our boys and not very far from me, killed three and wounded about twelve. I must be blessed with somebody's prayers, because although shrapnel has fallen all around me I never have been touched.

"Well, dad, I am satisfied now that I have done my bit and a soft job wouldn't go bad. I can tell anybody I have gone through one of the bloodiest battles in the war. There will be a lot of repairing to be done when the war is over, for as we pass through villages, in the wake of the Germans we very often don't even find one house standing; the place is a mass of bricks.

"Just at present we are out on a rest and have no idea when we are going in the lines again, so we will probably get passes to some good-sized towns. I will have a great story to tell when I get home. I received your candy the other day and it sure did taste good.

"Well, will close now, hoping to hear from you soon, and hoping and praying that the family is all well. I will have my picture taken very shortly and send it home to you to see I am getting very stout even though I am ducking shells. My love to all and give mother a kiss for me.

"Your loving son,

"JIMMIE."

Madison Eagle, January 10, 1919

Died:

Carnot Ward's Yacht is Accepted for Patrol

---

## Government Will Make Use of Boat Which Has Been Fully Armed and Equipped

---

The fast yacht Edith II, which was purchased several months ago by Carnot M. Ward, has been accepted by the Naval Department and Mr. Ward has enlisted his services as boatswain.

Edith II was one of the show boats at New York last winter and it attracted much attention. It was purchased for summer cruising, but it was designed for military purposes and when its owner offered its service to the government, it was promptly accepted.

The boat is being equipped with one rapid firing gun and one gun, which is two pounds in the bow. This yacht will be used in the coast defense service and the boat and its owner are ready for their orders.

Madison Eagle, May 11 1917
